

University entrance examinations

Applicants are advised that out of the four public universities, only the University of Malawi (UNIMA) currently has university entrance examinations (UEEs). As a part of the harmonisation of selection into public universities, the National Council for Higher Education (NCHE) has approached the UNIMA Council to do away with entrance examinations, especially considering that MANEB examinations have been conducted in a credible way in the past few years, but the UNIMA Council has not yet made a decision on that. Applicants will be advised when the UNIMA Council makes a decision on the UEEs.
